Graduate Programs in the Millyard

We’ll help you make a name for yourself!

The University of New Hampshire Graduate School offers post-baccalaureate programs in applied professional fields in Manchester. Centrally located in Manchester’s historic Millyard in the heart of I-93 corridor, the Graduate School offers the expertise of the University of New Hampshire faculty, contemporary curricula, modern educational facilities, convenient access, flexible schedules, and most important, a graduate degree from the University of New Hampshire, the state’s flagship public university.

The goal of the graduate programs offered in Manchester is to provide high-quality graduate-level educational opportunities for working professionals to prepare them for leadership roles in the fields of business, education, public administration, public health, information technology, and social work. Classes are designed for working professionals who attend classes late afternoons or evenings.
Program Offerings
All graduate programs supported by UNH are directed by UNH faculty, administered by the UNH Graduate School, and designed for working professionals in a variety of delivery models including weekend, evening, and hybrid courses.

Persons holding a baccalaureate degree from an accredited college or university may apply for admission to Graduate School. Admission is both limited and competitive and is based solely upon academic qualifications and potential of the individual.

Manchester Students
Students enrolled in programs offered in Manchester are subject to all rules, regulations, policies, and graduation requirements of the UNH Graduate School.

“The Manchester MSW program provided me with flexibility to keep my full-time job while going to school. I have access to top-notch professors that have a wide breadth of experiences.”

“The UNH Education program did an incredible job of preparing me for the classroom and all aspects of my current position. The one-year internship was an amazing experience in which grad faculty and classroom teaching supervisors created a strong mentoring environment.”
